SAFETY DELTA NEWSLETTER - JANUARY 2023

## Safety Delta app - your partner in every stage of the way

You asked, we listened. We are excited to announce that the Safety Delta app is now available for both Android and iOS.

With the app, you'll have everything you need for your Safety Delta journey - at your fingertips.

Get guides, reports, and learning materials that focus on various safety and human performance areas.

From Diagnosis to Dialogue to Development, this app will be your partner in every stage of the way.

SAFETY DELTA NEWSLETTER - JANUARY 2023

## Experience a user-friendly interface that gives you...

### Total access

Get access to quick guides and learning materials (briefs, animations, activities, and posters) for all the safety areas. You can also download them for offline use.

### Intuitive search

Easily find any topic with just keywords. You can also customise your search according to your role and/or preferred language (English or Spanish).

### Complete reports

View your CSD report and fill out your dialogue sheets and SDP form. You get everything you need to efficiently facilitate the three stages.

### Progress overview

Update the cycle status so that your office can get an at-a-glance overview of your vessel's progress in each of the Safety Delta stages.

### Hassle-free updates

Stay on top of the latest updates, with real-time notifications. No need for SD card replacement and all that jazz.

## Install in 3 easy steps

**1 /** Go to Google Play Store or Apple's App Store and type "Safety Delta".

**2 /** Look for the Safety Delta logo, select, and install.

**3 /** Sign in using your vessel's email address.

Install the app now and be a tap away from a more proactive safety culture on board your vessel!

## Client anniversary
